

## Emerging Research in Optimization Algorithms in the Era of Big Data

Guest Editors:

**Dr. Marko Gulić**

Department of Electrical  
Engineering, Automation and  
Computing, Faculty of Maritime  
Studies, University of Rijeka,  
51000 Rijeka, Croatia

**Prof. Dr. Heming Jia**

School of Information  
Engineering, Sanming University,  
Sanming 365000, China

**Prof. Dr. Antonio Jiménez-  
Martín**

Departamento de Inteligencia  
Artificial, Escuela Técnica  
Superior de Ingenieros  
Informáticos, Universidad  
Politécnica de Madrid (UPM),  
28660 Madrid, Spain

Deadline for manuscript  
submissions:

**20 August 2026**

### Message from the Guest Editors

The Special Issue "Emerging Research in Optimization Algorithms in the Era of Big Data" is EXTENDED!

This Special Issue explores the dynamic landscape of optimization algorithms tailored to the challenges of big data analytics and presents the latest advances and emerging trends. This collection covers a wide range of topics, including evolutionary algorithms, genetic programming, swarm intelligence, nature-inspired optimization techniques, parallel and distributed optimization algorithms optimized for the Cloud, deep learning-based optimization strategies, hybrid optimization frameworks, and optimization algorithms for real-time processing of big data and streaming analytics. In addition, applications of optimization algorithms are explored in various areas, such as healthcare, finance, transportation, and cybersecurity, incorporating advances in generative AI to improve optimization capabilities in cloud-based environments. This Special Issue is a testament to the vibrant research community dedicated to advancing optimization algorithms in the context of big data analytics.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

## Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

*Information* is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Ei Compindex](#), [dblp](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q2 (Information Systems)
