Message from the Guest Editors

The aim of this Special Issue is to bring together contributions that relate AI with the media industry in the context of applications, innovations, and challenges.

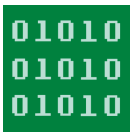

Potential topics of the Special Issue include but are not limited to the following:

- applications of AI or related methods in media platforms
- applications of AI or related innovations in newsrooms routines and practices;
- applications of AI or related innovations in enhanced storytelling and emergent digital formats;
- applications of AI or related innovations in dealing with misinformation and fake news;
- applications of AI and related methods in social media, including qualitative and quantitative analysis of information and interactions;
- ethical, economical, political, social, and other challenges related to the application of AI in the media industry;
- evaluation of AI and related methods in media contexts (for example, performance and experience, value, credibility, and utility).

Research articles which describe original work, including methods, techniques, applications, tools, or survey papers, are welcome.

Editor-in-Chief

Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Ei Compindex](#), [dblp](#), and [other databases](#).

Journal Rank: [CiteScore - Q2](#) (*Information Systems*)
