Complex Systems and Application of Artificial Intelligence

Guest Editor:

Prof. Dr. Javad Jassbi
1. Center of Technology and Systems (CTS), UNINOVA, Caparica, Portugal
2. Department of Mechanical and Industrial Engineering, Faculty of Sciences and Technology, Nova University of Lisbon, 2825-149 Caparica, Portugal

Deadline for manuscript submissions:
closed (30 April 2022)

Message from the Guest Editor

The Special Issue "Complex Systems and Application of Artificial Intelligence" has been OPEN!

This Special Issue aims to highlight and present the latest developments in AI dealing with complex systems. AI includes different techniques and algorithms, and any of them would be welcome. The challenge here is that of applying AI to model complex systems for a better world. The application domain could include but is not limited to healthcare, manufacturing, security, collaborative networks, agriculture, economy, micro- and macromanagement, environment, and energy.

This Special Issue seeks interdisciplinary works (mathematics, physics, biology, social sciences, cognitive sciences, etc.) that demonstrate the intersection of complex systems and artificial intelligence.

Special Issue

Editor-in-Chief

Prof. Dr. Willy Susilo
School of Computer Science and
Software Engineering, University
of Wollongong, Northfields
Avenue, Wollongong, NSW 2522,
Australia

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.
Journal Rank: CiteScore - Q2 (*Information Systems*)
