Advances in Cybersecurity and Reliability

Guest Editors:

Dr. Moutaz Alazab
Faculty of Artificial Intelligence, Al-Balqa Applied University, Al-Salt 19117, Jordan

Dr. Ammar Alazab
School of IT, Melbourne Institute of Technology, Melbourne, VIC 3000, Australia

Deadline for manuscript submissions:
closed (20 January 2024)

Message from the Guest Editors

We encourage original submissions that either consider the characteristics of cybersecurity, cybercrime or propose innovative solutions to real-world scenarios. In particular, we encourage the submission of the articles offering research results, experimental solutions, and case studies and describe the current state of the art of cybersecurity. The submitted articles must discuss innovative research which has not been published nor is currently under review by other journals, conferences or books. Editors will make an initial assessment of the contributions, originality, and scope of all submissions. Papers that either lack originality and clarity in presentation or fall outside the scope of the Special Issue will not be sent for review, and authors will be swiftly contacted in such cases.

Special Issue

Editor-in-Chief

Prof. Dr. Willy Susilo
School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.
Journal Rank: JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q2 (Information Systems)
