

## Multi-objective Evolutionary Feature Selection

Guest Editors:

**Dr. Fernando Jiménez**

Faculty of Informatics, University of Murcia, 30003 Murcia, Spain

**Prof. Dr. José T. Palma**

Faculty of Informatics, Department of Information and Communications Engineering, University of Murcia, Murcia, Spain

Deadline for manuscript submissions:

**closed (1 April 2019)**

### Message from the Guest Editors

This Special Issue invites original research papers that report on the state-of-the-art and recent advancements in Multi-objective Evolutionary Computation techniques for Feature Selection. The scope of this Special Issue encompasses applications in Engineering, Artificial Intelligence, Physical Science, Social Science, Business, Economy, Market Research, and Medical and Health Care. Topics of interest include (but are not limited to) the following subject categories:

- Multi-objective evolutionary univariate/multivariate feature selection methods for classification/regression/clustering/association rules.
- Multi-objective evolutionary filter/wrapper/embedded feature selection methods for classification/regression/clustering/association rules.
- Multi-objective evolutionary feature selection for unbalanced data.
- Multi-objective evolutionary feature selection for multiple instance learning.
- Multi-objective evolutionary feature selection for multi-class classification.
- Multi-objective evolutionary feature selection for fuzzy classification.
- Multi-objective evolutionary feature selection for text classification.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

## Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

*Information* is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Ei Compindex](#), [dblp](#), and [other databases](#).

**Journal Rank:** [CiteScore - Q2](#) (*Information Systems*)
