Deadline for manuscript  
submissions:

**30 September 2024**

### Message from the Guest Editors

Dear Colleagues,

Computer vision and pattern recognition are two popular research directions in the field of computer science. They are widely used in image and video processing, human-computer interactions, machine learning, artificial intelligence and other fields. These applications have brought enhanced convenience to human life and production. This Special Issue will focus on the latest advances and hot topics in computer vision and pattern recognition, covering aspects of applications, technology and future trends. Our aim in launching this Issue is to provide a platform for researchers and practitioners to use as a forum to exchange and showcase the latest achievements in this field.

Dr. Shuo Chang

Dr. Guiyang Luo

Dr. Lei Jin

## Editor-in-Chief

### Prof. Dr. Willy Susilo

School of Computer Science and Software Engineering, University of Wollongong, Northfields Avenue, Wollongong, NSW 2522, Australia

## Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

*Information* is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Ei Compindex](#), [dblp](#), and [other databases](#).

**Journal Rank:** [CiteScore - Q2](#) (*Information Systems*)
