

New Trend on Fuzzy Systems and Intelligent Decision Making Theory: A Themed Issue Dedicated to Dr. Ronald R. Yager

Guest Editors:

Prof. Dr. Luis Martínez López

Dr. Lesheng Jin

Dr. Zhen-Song Chen

Prof. Dr. Humberto Bustince

Deadline for manuscript
submissions:

28 February 2025

Message from the Guest Editors

This Special Issue is devoted to Dr. Ronald R. Yager's research; he has been and still is a pioneer in several fields including fuzzy systems and intelligent decision-making theory, among others. He has published many papers, most of which were written independently by himself, and many books/monographs.

To honor his contributions, this Special Issue will gather research works and reviews from researchers and scientists working in the research areas most impacted by Dr. Yager's research. The Special Issue welcomes original contributions that advance the state-of-the-art of intelligent decision-making theory, preference and uncertainty involved decision making, fuzzy systems, extended fuzzy sets with application, information fusion techniques, and other related topics.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Ei Compindex](#), [dblp](#), and [other databases](#).

Journal Rank: [CiteScore - Q2](#) (*Information Systems*)
