Deadline for manuscript submissions:

**closed (1 June 2023)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue will present high-quality papers on system safety and security—two topics of growing importance in the global political, military and economic context. We invite all the researchers to submit their contribution on increasing the security and safety of the systems that are key components of critical infrastructures, such as energy production and distribution, water and wastewater management, defense, healthcare providers, transportation systems and communications.

This Special Issue will comprise mainly extended versions of selected papers that were presented at the International Workshop on Systems Safety and Security—IWSSS (<https://iwsss.org>), but other valuable and relevant contributions in this field could also be submitted.

Authors of invited papers should be aware that the final submitted manuscript must provide a minimum of 50% new content.

Dr. Emil Pricop

Dr. Grigore Stamatescu

Dr. Jaouhar Fattahi

## Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

*Information* is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Ei Compindex](#), [dblp](#), and [other databases](#).

**Journal Rank:** [CiteScore - Q2](#) (*Information Systems*)
