Message from the Guest Editors

This Special Issue encourages the submission of papers presenting state-of-the-art research and application of machine learning approaches in various industrial settings. Topics of interest include (but are not limited to) the following subject categories:

- Big data.
- Streaming data.
- Stream processing.
- Scalable cloud infrastructures.
- Deep learning and machine learning (DL/ML) on big data.
- Real-time analytics.
- Multi-variate time series.
- Data fusion.
- Cloud data warehouses.
- Data lakes.
- Multi-cloud data processing architectures.
- Application of ML in medicine and health informatics.
- Application of ML in retail.
- Application of ML in banking, financial services, and insurance (BFSI).
- Data Fabric & Data Mesh architectures

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Ei Compindex](#), [dblp](#), and [other databases](#).

Journal Rank: [CiteScore - Q2](#) (*Information Systems*)
