Channel Estimation and Detection for Large-Scale MIMO Systems

Guest Editor:

Prof. Dr. Ahmed Sulyman

Department of Electrical, Computer & Software Engineering, College of Engineering, Embry-Riddle Aeronautical University, Daytona Beach, FL 32114-3900, USA

Deadline for manuscript submissions:
closed (31 October 2021)

Message from the Guest Editor

Dear Colleagues,

We invite prospective authors to contribute original research articles as well as review articles on the theory and practical implementations of massive MIMO systems. Potential topics include, but are not limited to the following: Large-scale/Massive MIMO deployments, Distributed vs Collocated massive MIMO BSs in 5G, Investigation of radiation exposure for distributed vs. collocated BSs, Propagation aspects and channel modeling, Low-complexity detectors for massive MIMO systems, Coding and modulation designs for massive MIMO systems, Theoretical Analysis as well as performance results from testbeds.

Prof. Dr. Ahmed Sulyman
Guest Editor

Special Issue

Editor-in-Chief

Prof. Dr. Willy Susilo

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, and other databases.
Journal Rank: CiteScore - Q2 (*Information Systems*)
