Message from the Guest Editors

Special Issue "New Trends and Challenges in Intelligent Transportation Systems Optimisation, Modeling and Security" has been EXTENDED!

This special issue aims to gather the last trends and challenges raised in different research communities working on intelligent transportation systems, with a particular focus on the studies dealing with the development of tools issued from Operational Research, Artificial Intelligence, security, and traffic control fields:

- intelligent transportation system
- transportation technologies
- transport management
- connected vehicles

Message from the Editor-in-Chief

The concept of *Information* is to disseminate scientific results achieved via experiments and theoretical results in depth. It is very important to enable researchers and practitioners to learn new technology and findings that enable development in the applied field.

Information is an online open access journal of information science and technology, data, knowledge and communication. It publishes reviews, regular research papers and short communications. We invite high quality work, and our review and publication processing is very efficient.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Ei Compindex](#), [dblp](#), and [other databases](#).

Journal Rank: [CiteScore - Q2](#) (*Information Systems*)
