Deadline for manuscript  
submissions:

**closed (31 October 2023)**

### Message from the Guest Editor

Dear Colleagues,

Fluid mechanics and transport phenomena play a crucial role in many different engineering fields, such as in fluid machineries, chemical processes, heat exchangers, energy conversion and management, heat/mass transfer enhancement, flow resistance of propulsion, cooling of electric and electronic devices, engineering apparatus with multi-phase flow, and renewable energy systems. This Special Issue is dedicated to the current advancements in theoretical, experimental, and numerical studies of single and multiphase flows, which are of significance for the science of industrial applications. Papers addressing the latest developments in computational fluid dynamics (CFD) and experimental methods for investigating fluid flows involving transport phenomena are also of interest.

Prof. Dr. Shyy Woei Chang

## Editors-in-Chief

### **Prof. Dr. Chien-Hung Liu**

Department of Mechanical  
Engineering, National Chung  
Hsing University, 250 Kuo Kuang  
Rd., Taichung 402, Taiwan

### **Prof. Dr. Shoou-Jinn Chang**

Department of Electrical  
Engineering, National Cheng  
Kung University, Tainan 701,  
Taiwan

## Message from the Editorial Board

The unique journal *Inventions* is different from all other journals. Many scholars spend their lives publishing research papers in many different journals, but most of these journals do not help scholars collate and analyze their results or assist in promoting them to a relevant industry. However, *Inventions* will help authors not only to publish their papers in the journal, but also to promote their research results to industry and assist them in realizing the purpose of technology transfer. In the future, *Inventions* will help authors to evaluate their technology license fees based on the valuation theory and approaches and also help authors to show their patents and technologies on a network transaction platform.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), Inspec, Ei Compendex and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (General Engineering)
