

## Innovative Research and Applications in Hydrodynamics and Flow Control, 2nd Edition

Guest Editors:

**Dr. Peng Du**

School of Marine Science and Technology, Northwestern Polytechnical University (NPU), 127 Youyi Road, Beilin, Xi'an 710072, China

**Prof. Dr. Haibao Hu**

School of Marine Science and Technology, Northwestern Polytechnical University, 127 Youyi Road, Beilin, Xi'an 710072, China

**Prof. Dr. Xiaopeng Chen**

School of Marine Science and Technology, Northwestern Polytechnical University, 127 Youyi Road, Beilin, Xi'an 710072, China

Deadline for manuscript submissions:

**closed (31 May 2025)**

### Message from the Guest Editors

This Special Issue aims to collect cutting-edge developments in the area of hydrodynamics and flow control, including both fundamental and engineering research. Hydrodynamics is of great importance in ships, marine engineering, energy, etc. It influences the kinetics and kinematics of ships, underwater vehicles, and marine structures. Flow control techniques can be used to manipulate hydrodynamics for saving energy, high performance, etc. Topics of interest include, but are not limited to:

1. Design of ships, underwater vehicles, and marine structures;
2. Shape optimization of marine vehicles;
3. Experimental fluid mechanics of marine structures;
4. Computational methods for fluids;
5. Applications of CFD methods;
6. Flow control techniques;
7. Fluid mechanics;
8. Machine learning methods for fluids.

**Prof. Dr. Chien-Hung Liu**

Department of Mechanical  
Engineering, National Chung  
Hsing University, 250 Kuo Kuang  
Rd., Taichung 402, Taiwan

**Prof. Dr. Shoou-Jinn Chang**

Department of Electrical  
Engineering, National Cheng  
Kung University, Tainan 701,  
Taiwan

## Message from the Editorial Board

The unique journal *Inventions* is different from all other journals. Many scholars spend their lives publishing research papers in many different journals, but most of these journals do not help scholars collate and analyze their results or assist in promoting them to a relevant industry. However, *Inventions* will help authors not only to publish their papers in the journal, but also to promote their research results to industry and assist them in realizing the purpose of technology transfer. In the future, *Inventions* will help authors to evaluate their technology license fees based on the valuation theory and approaches and also help authors to show their patents and technologies on a network transaction platform.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), Inspec, Ei Compendex and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
