### Message from the Guest Editors

Dear Colleagues,

This Special Issue delves into the current advancements and forthcoming challenges in orthognathic surgery, with a keen emphasis on surgical diagnostics, treatment planning and post-operative outcomes. Perspectives from both the patient and the professional are integral to our exploration. We also welcome contributions on translational research in the domain of orthognathic surgery and its intersections with craniofacial orthodontics, aiming to spotlight innovations poised to reshape the future of surgical interventions and address potential challenges in the coming decade.

New trends will involve many fields of orthognathic surgery:

- Digital integration and virtual surgical planning (VSP);
- 3D printing;
- Treatment of obstructive sleep apnea (OSA);
- Minimally invasive techniques;
- Predictive outcome modeling;
- Early intervention;
- Surgery-first;
- Custom implants.

Research articles and comprehensive reviews are welcome to submit.

Dr. Charles Savoldelli

Dr. Matthias Schlund

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
