Message from the Guest Editor

Dear Colleagues,

Hemostasis and thrombosis have seen some phenomenal changes in both diagnosis and management. Several innovations have resulted in paradigm shifts in the management of life-threatening disorders. We are entering an era of increased choice and associated challenges, where the focus is the optimization of care and equity of access.

This Special Issue is devoted to the state of the art and areas that have not been the subject of intense focus to date in the fields of hemostasis, thrombosis, and angiology. We look forward to your contributions.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
