Deadline for manuscript
submissions:

closed (25 July 2024)

In recent years, multiple efforts have been devoted to obtaining an effective rhythm control strategy and stroke prophylaxis. Transcatheter ablation is the most effective arrhythmia control strategy currently available. The adoption of novel nonthermal energy sources for cardiac tissue ablation has substantially improved the safety and efficacy of this approach. Similarly, new devices with which to exclude the left atrial appendage from systemic circulation have proven superior in preventing thromboembolic events compared to oral anticoagulation in high-risk patients. Researchers in this field are encouraged to submit original research or review articles to this Special Issue that provide useful insights into clinical advances and perspectives with respect to the management of atrial fibrillation, with a particular emphasis on catheter ablation and stroke prophylaxis.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
