Deadline for manuscript submissions:

**31 January 2025**

### Message from the Guest Editor

Dear Colleagues,

Obesity has become a global health concern, leading to an increased demand for bariatric interventions. Bariatric surgery and endoscopic bariatric therapy have emerged as effective treatments; however, the existing literature lacks a comprehensive comparison of their outcomes, particularly in terms of disparities and differential effects.

This Special Issue aims to critically evaluate and address the methodological inconsistencies in existing comparative studies, thereby paving the way for more conclusive findings. Exploring Disparities in Subpopulations: We will evaluate the differential effects of bariatric interventions across diverse demographic and clinical subpopulations to unravel disparities in outcomes.

We invite the submission of original research articles, systematic reviews, meta-analyses, and theoretical papers that contribute to deepening our collective understanding of the differences in outcomes between bariatric surgery and endoscopic bariatric therapy. Submissions addressing methodological refinements, long-term comparative data, patient-reported outcomes, and disparities in subpopulations are particularly encouraged.

Dr. Mohamad Mokadem

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
