### Message from the Guest Editors

Dear Colleagues,

The way to provide the right care for the right patient at the right time in contemporary overcrowded Emergency Departments is a major topic. This is particularly true in the management of the acute phase of cardiovascular diseases. An increasing number of accurate strategies have been designed in order to optimize the determination of acute coronary syndrome or pulmonary embolism in case of chest pain. The role of the Emergency Department Observation Unit and structural protocols has been studied to better manage patients with acute heart failure or pericarditis. Moreover, the acute aortic syndrome remains a challenge for Emergency physicians. In this Special Issue, we welcome authors to submit papers on the management of arrhythmias, acute coronary syndrome, pulmonary embolism, acute heart failure, pericarditis and acute aortic syndrome in the Emergency Department in terms of both diagnosis and treatment.

Dr. Vincenzo G. Menditto

Dr. Federico Guerra

Dr. Marco Marini

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
