Dental University, Tokyo, Japan

Deadline for manuscript
submissions:

26 December 2024

Message from the Guest Editor

The purpose of this Special Issue is to describe the current diagnostic methods and treatment outcomes for vascular diseases, particularly aortic aneurysms, peripheral artery diseases, and venous diseases, and identify current issues while also discussing possible solutions for the future. Regarding aortic aneurysms, including dissection, endovascular aneurysm repair (TEVAR/EVAR) has become the gold standard. We would particularly welcome authors to discuss complications that influence treatment outcomes. For peripheral artery diseases, particularly CLTI, we would like authors to discuss a wide range of treatment methods. Additionally, we would like authors to discuss the latest findings on venous diseases. This Special Issue welcomes original articles on vascular diseases.

Keywords

- aortic aneurysm
- peripheral arterial disease
- chronic limb-threatening ischemia
- endovascular aneurysm repair
- endovascular treatment
- non-invasive blood flow measurements
- varicose veins
- deep venous thrombosis

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
