Deadline for manuscript
submissions:

30 November 2024

Message from the Guest Editor

Dear Colleagues,

We have witnessed significant demographic changes in the health of older individuals across the globe in recent decades, and unmet healthcare needs are expected to increase exponentially. Unmet needs rely on the difference between the healthcare services deemed necessary and the services received.

We are excited to invite you to contribute to this Special Issue of the *Journal of Clinical Medicine*, aiming to increase our understanding of the epidemiology of aging through the lens of medical and non-medical unmet needs in our target group. We aim to explore the associated factors of developing negative outcomes by covering various critical points. We also want to give space to innovative research, particularly in the context of aging in place, healthy aging and unmet needs.

The topics of interest for publication include, but are not limited to, the clinical dimension of unmet needs. We welcome reviews (systematic and narrative), original reports, perspectives, hypothesis and theory, methods and case reports.

We hope to receive your valuable contribution to advance our knowledge in this field.

Dr. Vincenza Frisardi

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
