Deadline for manuscript  
submissions:

**25 September 2024**

### Message from the Guest Editor

Dear Colleagues,

In recent years, we have seen numerous pharmacological treatments for heart failure, both in reduced and preserved ejection fraction. Many advances derive from the results of published clinical trials that are having a great impact on the recommendations of clinical practice guidelines in heart failure. However, it would be interesting to know how these new pharmacological therapies are being carried out in patients with heart failure in our real world. In this sense, we encourage you to submit manuscripts to this section that show evidence in this regard or that investigate new therapies for the therapeutic management of heart failure.

Dr. Manuel Méndez-Bailón

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
