Message from the Guest Editors

Dear Colleagues,

Aortic aneurysm and aortic dissection are potentially life-threatening conditions that require urgent attention. In recent years, a substantial amount of research has been conducted, evidenced by over 18,094 papers that have been published and indexed by the Web of Science since 2019.

Despite advances in diagnosis and treatment, there are significant treatment gaps that need to be addressed to save lives.

.....

This Special Issue aims to address these gaps, gives updates on current clinical research developments and invites articles on screening methods, treatment gaps, and innovative approaches to diagnosis.

Let us collaborate and together take a step towards overcoming the treatment gap for aortic aneurysms and aortic dissection.

Sincerely,

Dr. Benedikt Reutersberg

Dr. Matthias Trenner

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
