Message from the Guest Editor

Dear Colleagues,

This Special Issue "Recent Advances in the Management of Viral Hepatitis" covers significant developments in the diagnosis and treatment of viral hepatitis. The Special Issue comprises articles on the latest advancements in managing hepatitis virus (A through E) infections, including antiviral therapies, drug resistance, and prevention strategies. Moreover, the Special Issue also includes articles that explore essential topics such as the role of vaccines in preventing viral hepatitis, improving health access and care for marginalized populations, and managing hepatitis-related liver cancer. Overall, this collection of articles offers insights into the current state of viral hepatitis management and provides new directions for future research in this field.
