Message from the Guest Editor

Dear Colleagues,

Implant dentistry is a fast-moving field, especially since the inclusion of advanced procedures and digitalization. The growing patient requirements for the immediate delivery of fixed teeth and increasingly complex anatomical situations due to implant and grafting failures have fueled the need for various surgical procedures, including angled, pterygoid, nasal, and zygomatic implants. The digitalization of implant dentistry further accelerates this phenomenon, allowing faster and more accurate workflows to enhance patient treatment success.

This Special Issue aims to provide the latest updates on leveraging advanced implant dentistry developments and digitalization to deliver excellent and predictable patient care. We welcome international authors willing to contribute scientific findings and provide clinically applicable conclusions to support the objectives of this Special Issue.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
