Deadline for manuscript  
submissions:

**25 December 2024**

### Message from the Guest Editor

It is my honor to announce this Special Issue on “Clinical Diagnosis, Monitoring, and Treatment for Acute Myocardial Infarction (AMI)”. Acute myocardial infarction (AMI), also known as a heart attack, occurs when the blood flow to a part of the heart is blocked, leading to damage or death of the heart muscle. This is usually caused by a blood clot in the coronary arteries, which supply the heart with oxygen-rich blood.

In recent decades, the diagnosis, treatment, and outcome of patients with an acute myocardial infarction have changed tremendously. The prompt recognition, diagnosis, and treatment of AMI are critical to improving patient outcomes and reducing the risk of complications. Close monitoring and comprehensive post-treatment care are essential for promoting recovery and long-term heart health.

We welcome authors to submit original research articles and review papers to this Special Issue.

an Open Access Journal by MDPI

## Editors-in-Chief

**Prof. Dr. Emmanuel Andrès**

Internal Medicine Department,  
University Hospital Strasbourg,  
67000 Strasbourg, France

**Prof. Dr. Kent Doi**

Critical Care Medicine, University  
of Tokyo, Tokyo 113-8655, Japan

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
