Message from the Guest Editors

Dear Colleagues,

This Special Issue "Transvenous Lead Extraction - Progress in Lead Management" aims to provide a comprehensive overview of the advancements and challenges in the field of lead extraction for cardiac device management. It will focus on the clinical aspects, techniques, outcomes, and safety considerations associated with transvenous lead extraction procedures. Leading experts in the field will contribute original research articles, reviews, and case studies to shed light on the latest developments in this rapidly evolving area. The goal is to enhance our understanding of the best practices, patient selection criteria, and potential complications related to transvenous lead extraction, ultimately improving patient outcomes and optimizing lead management strategies.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
