submissions:

28 December 2024

Message from the Guest Editors

Dear Colleagues,

Laparoscopy, a minimally invasive surgical technique, has gained significant importance in the field of gynecologic oncology. However, recent evidence proved that it may be associated with increased oncological risk in a selected patient group. These results raised many open questions that need to be investigated by the scientific community. Therefore, the place of laparoscopy in gynecologic oncology is rapidly evolving due to new scientific data. We invite you to submit your recent work on the following topics to our Special Issue: diagnosis, staging, surgical treatment, palliative care, and fertility preservation.

Despite its benefits, the use of laparoscopy in gynecologic oncology may be limited in certain cases. Close monitoring and specialized training are essential to ensure that laparoscopic procedures are performed effectively and with minimal risk to the patient.

We look forward to receiving your manuscripts.

Best regards,

Dr. Zoltan Novak
Dr. Attila Bokor

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
