Deadline for manuscript
submissions:

25 November 2024

Message from the Guest Editor

Dear Colleagues,

After the initial introduction of the first coronary intervention by Dr. Grunzig, percutaneous coronary intervention (PCI) has been one of the most commonly performed procedures with the greatest benefit occurring in patients with acute coronary syndrome. With the increasing clinical knowledge and complexity of coronary interventions, it is important to have periodic updates on clinical indications and technical advances in PCI, which is the goal of this Special Issue.

As the Guest Editor, I would like to invite you to contribute to our Special Issue, entitled “Percutaneous Coronary Intervention (PCI): Current Challenges and Future Perspectives”. We appreciate your contribution.

Dr. M. Reza Movahed

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
