submissions:

31 August 2024

Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to provide a comprehensive overview of the latest advancements and emerging trends in the field of hematology. The collection of articles in this Special Issue will focus on areas, such as novel targeted therapies and their efficacy in different malignancies, immunotherapeutic approaches for hematological malignancies, personalized treatment strategies, as well as diagnostic tools for assessing treatment responses.

We welcome original research articles, comprehensive reviews, and meta-analyses that provide valuable insights into the targeted treatment of hematological malignancies. However, please note that this Special Issue will not consider mini-reviews or case reports.

This Special Issue presents an excellent opportunity for researchers and clinicians to contribute to advanced targeted treatment options for hematological malignancies. We anticipate that the collection of articles in this Special Issue will provide valuable knowledge and pave the way for future breakthroughs in hematology.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
