Deadline for manuscript
submissions:

31 August 2024

Message from the Guest Editor

Dear Colleagues,

In the nephrological field, we are waiting for new biomarkers to fill the void caused by serum creatinine and urine output, characterized by low sensitivity and specificity, to detect renal damage early on. In recent decades, several studies have improved the knowledge surrounding the physiopathology of several renal diseases, with a better diagnosis and therapeutic management of acute (AKI) and chronic kidney diseases (CKD). AKI, as part of sepsis and related to a high mortality rate, is appropriately treated if precociously revealed.

This Special Issue aims to present original research (e.g., randomized controlled trials, cohort studies), literature reviews, and meta-analyses, to improve our understanding of renal biomarkers in acute, subacute, and chronic diseases.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
