Deadline for manuscript
submissions:

20 August 2024

Message from the Guest Editor

Dear Colleagues,

The aim of this Special Issue is to highlight the current themes in modern laser-, corneal- and lens-based refractive surgery. This issue will feature three articles from world-renowned refractive surgeons on the latest trends and themes relating refractive surgery.

We will be delighted if you are able to submit a full-length article or review on a topic of your choice in refractive, corneal and cataract surgery. The possible areas of interests for this issue are lenticule-based surgery, surface ablations, blended vision treatments with laser refractive surgery, corneal inlay procedures, presbyopia management with monovision laser vision correction, refractive lens exchange, premium presbyopia-correcting intraocular lens, refractive solutions for keratoconics, complex cataract surgery, biometry, cataract surgery outcomes, modern lamellar corneal transplants, etc.

We will be grateful if you can let us know whether this is something you are interested to contribute to.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
