Deadline for manuscript
submissions:

closed (31 December 2021)

Message from the Guest Editor

Cardiac amyloidosis has undergone major changes in recent years: first with the development of non-invasive diagnostic techniques that have led to an increase in diagnoses and, more recently, the development and improvement of treatments, particularly in the field of transthyretin amyloidosis. These developments have led the entire cardiology community to take an interest in this pathology and to set up collaborations between specialists to improve diagnosis and management. Cardiac amyloidosis leads us to reconsider cardiology from a new perspective, with a pathology that differs in all respects from other cardiomyopathies and requires dedicated knowledge and multidisciplinary management. For all these reasons, it seemed necessary to create a Special Issue on this topic. With this Special Issue, we hope to encourage submissions that discuss the current state of the art, address ongoing knowledge gaps, and focus on ongoing controversies and management related to cardiac amyloidosis.

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
