closed (15 December 2022)

Message from the Guest Editor

Dear Colleagues,

Triple-negative breast cancer (TNBC) accounts for 10–15% of all breast cancers. Despite the relatively low occurrence, TNBC has a high mortality risk due to its highly heterogeneous, metastatic, and refractive characteristics, which pose challenges for effective treatment. There are no approved chemotherapeutics specifically for TNBC. The adjuvants and neoadjuvant prescribed for TNBC are not promising therapeutics; thus, there is a critical need for targeted therapy. In addition, underlying metabolic conditions such as diabetes further exacerbate TNBC, and patients with concurrent diabetes and TNBC have a poor prognosis.

All submissions addressing all the above highlighted aspects on TNBC are welcome to this Special Issue. Thus, original articles, comprehensive reviews, and expert opinions are of the utmost interest, given the expansive scope of this area.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
