School, Ann Arbor, MI, USA

Deadline for manuscript  
submissions:

**closed (28 February 2021)**

### Message from the Guest Editor

Dear Colleagues,

Facial plastic and reconstructive surgery is replete with opportunities for research and innovation. Rhinoplasty, perhaps the signature operation of our specialty, is mastered over a lifetime, as are many of our nuanced operations. This volume dedicates substantial space to advances in cosmetic, functional, and reconstructive approaches. This Special Issue invites advances in facial paralysis, facial rejuvenation, and reconstruction of congenital and acquired deformities.

We are also looking to highlight frontier areas – translational research at the leading edge of innovation, from tissue bioengineering to implantable bionics and exploratory laboratory investigations. Facial plastic surgery – from rhinoplasty to rejuvenation to reanimation – continues to be a challenging and rewarding field with endless opportunities for leveraging new technologies and translating scientific discovery into advances in clinical practice. I invite you to join us in sharing advances and proven approaches for improving surgical outcomes.

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
