Message from the Guest Editor

Dear Colleagues,

Hair and scalp diseases are a rapidly growing field of basic and clinical research. There is an increased understanding of the hair as an important factor determining the quality of life. New diagnostic techniques, such as trichoscopy or reflectance confocal microscopy and novel therapeutic methods, such as JAK inhibitors and biological drugs contribute to the field of hair and scalp diseases being a topic of significant interest in dermatology and in medicine in general. This issue will focus on the systemic aspects of hair and scalp diseases, novel diagnostic techniques and new developments in treatment.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
