Message from the Guest Editors

Dear Colleagues,

Interventional pulmonology has become an indispensable, highly evolving, medical field for diagnosis and treatment of various lung diseases. Originating from traditional flexible and rigid bronchoscopy, the combination with advanced techniques such as confocal laserendomicroscopy, endosonography, electromagnetic navigation, radiofrequency ablation, cryotherapy, and others is key to the growth of diagnostic and treatment approaches in this minimally invasive field.

We are pleased to present the current Special Issue on the role of interventional pulmonology in respiratory diseases, covering topics from diagnosis to treatment and providing insights into different aspects of interventional pulmonology with a mix of original and review articles.

Keywords: pulmonary emphysema; lung cancer; interstitial lung disease; EBUS; asthma; chronic bronchitis; airway stenosis

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
