Message from the Guest Editor

This Special Issue presents an opportunity for ophthalmologists to publish their innovative works focused on the recent advances in keratoplasty surgery. Potential areas of interest include, but are not limited to, the following: lamellar keratoplasty, high-tech intraoperative tools, machine learning and artificial intelligence, and novel surgical techniques. I have the pleasure of inviting you to submit your work for consideration in this Special Issue entitled "New Advances in Keratoplasty". Original research articles (clinical or basic science research), reviews, short communications, and interesting images are welcome. All papers will be fully open access upon publication after peer review.
