Deadline for manuscript submissions:

30 December 2024

Message from the Guest Editors

Dear Colleagues,

Atopic dermatitis is a chronic inflammatory skin disease. Advances in the discovery of new therapeutic targets have facilitated the development of molecules with therapeutic potential. The reality is that there is a therapeutic paradigm shift in atopic dermatitis. It is necessary to stay updated in relation to the results observed in real clinical practice experience. It is also necessary to learn about new clinical trials and new potentially therapeutic molecules. Biological therapy promises new additions, such as nemolizumab or lebrikizumab. Currently, new JAK inhibitors are being studied, although no new ones appear to be incorporated in the near future. This Special Issue, titled Treatment of Atopic Dermatitis, will attempt to cover any potentially useful treatments in this disease.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
