submissions:

31 July 2024

Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to provide a comprehensive overview of the latest advancements and emerging trends in the field of dermatology. We invite researchers, clinicians, and experts in the field to contribute original research articles, reviews, and clinical studies that shed light on targeted treatment options for various skin inflammatory conditions. The Special Issue aims to cover a wide range of topics, including but not limited to:

1. Mechanisms of skin inflammation and immune response;
2. Novel drug delivery systems for targeted therapy;
3. Diagnostic tools for assessing skin inflammation;
4. Clinical trials and evidence-based treatment approaches.

We welcome original research articles, comprehensive reviews, and meta-analyses that provide valuable insights into the targeted treatment of skin inflammation. However, please note that this Special Issue will not consider mini-reviews or case reports.

We look forward to receiving your contributions and thank you for your support.

Prof. Dr. Paola Savoia

Dr. Elisa Zavattaro

Dr. Federica Veronese

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
