Message from the Guest Editor

Dear Colleagues,

This Special Issue, "New Frontiers in Endodontic Dentistry", aims to bring together articles covering relevant scientific topics on endodontics and recent advances in the development and optimization of all branches of endodontics such as instrumentation; endodontic anatomy; root canal cleaning systems; biomaterials; the use of tools such as CLSM, MicroCT, etc.; cytotoxicity; the endodontic microbiome; antimicrobials; and irrigants. Therefore, this Special Issue welcomes contributions from all researchers working in dentistry, biomolecular sciences, or material processing in relation to endodontics, regenerative endodontics, and dental restoration. This Special Issue will be a timely approach to survey the recent progress in the development and optimization of these subjects.
