Message from the Guest Editors

We are very pleased to announce the upcoming release of a Special Issue of the *Journal of Clinical Medicine* focused on Myocardial Infarction and Non-Obstructed Coronary Arteries (MINOCA).

MINOCA recognition has been gaining ground in recent years thanks to increased awareness of this condition and the presence of powerful diagnostic tools, such as ultrasensitive biomarkers of myocardial injury.

Although there is an increasing interest from clinicians all around the world regarding MINOCA, its management still represents a challenge and many aspects remain controversial.

In fact, research on MINOCA has dramatically improved in the last few years, but there are many unresolved issues, especially those pertaining to diagnostic and therapeutic approaches.

A “precision medicine” approach is required to manage these patients, and this dedicated Special Issue of the *Journal of Clinical Medicine* represents a unique opportunity to disseminate your research in the intriguing field of MINOCA.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
