Message from the Guest Editor

Dear Colleagues,

Over the past decades, primary percutaneous coronary intervention and other advances have substantially improved the outcomes following acute myocardial infarction. However, myocardial infarction continues to lead to significant mortality and morbidity over the long term. The aim of this Special Issue is to provide a comprehensive overview of the advances in the prevention, treatment, and complications of myocardial infarction, with a particular focus on innovative technologies. Open questions include the following: Can vulnerable plaques be identified before the occurrence of myocardial infarction? How can ischemia-reperfusion injury be reduced? What is the best treatment for patients with cardiogenic shock? Therefore, researchers in the field of myocardial infarction and coronary artery disease are encouraged to submit their findings, as original articles or reviews, to this Special Issue.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
