

Clinical Management of Skin Cancer: From Pathology Advances to Techniques Applications

Guest Editor:

Dr. Guy Orchard

St. John's Dermatopathology,
Tissue Sciences, Synnovis
Analytics, St. Thomas' Hospital,
London, UK

Deadline for manuscript
submissions:

15 January 2025

Message from the Guest Editor

In this Special Issue, we seek to highlight the importance of continued expansion in the field of translational and clinical research to provide better insights into single and combined therapies for treating skin cancer. We welcome authors to submit papers on the clinical management of skin cancer through advanced technical applications with an emphasis on pathological advances in our understanding of skin cancer biology.

- skin cancer
- surgery
- chemotherapy
- radiotherapy
- photothermal therapy
- combination therapy
- molecular target strategies

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
