Message from the Guest Editor

Dear Colleagues,

Robotic surgery has gained popularity in surgery, and particularly in urology. There are many indications now for robot-assisted surgery, from uro-oncology to benign disease and reconstructive surgery. Moreover, after almost two decades, there are now new contenders for the leadership in robotic surgery, with new robotic platforms coming to the market and aiming to overcome the historic monopoly. In this Special Issue, we welcome authors to submit papers on the clinical advances of robotic surgery in urology in terms of clinical outcomes as well as reports on the utilization of new robotic platforms.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
