### Message from the Guest Editor

Dear Colleagues,

This is a special issue entitled latest advances in the field of Otolaryngology Head and Neck Surgery. This special issue coincides with the 10th anniversary of the JCM. The last decade has seen an explosion of research and knowledge in multiple areas in Otolaryngology. The areas of interest include Human Papillomavirus associated cancers, robotic surgery, immunotherapy for head and neck cancer, biologics in chronic rhinosinusitis, cochlear implants to restore hearing, 3D printing, treatments for tinnitus, and latest treatments in sleep apnea.

We are accepting the following submissions: comprehensive Reviews, Observational Cohort study, Cross-sectional study, case control study, basic science research reporting the latest experimental and clinical translation research progress from your research group.
