Cottbus, Germany

Deadline for manuscript  
submissions:

**31 December 2024**

### Message from the Guest Editor

Dear colleagues,

As the Guest Editor, it is my privilege to invite you to discover new and relevant research results on cardiorenal syndrome in the upcoming second edition of our Special Issue titled “Advances in Cardiorenal Syndrome” ([https://www.mdpi.com/journal/jcm/special\\_issues/Advances\\_Ca](https://www.mdpi.com/journal/jcm/special_issues/Advances_Ca)

The new collection will cover the “renal factor” in cardiorenal syndrome that has become more relevant to both nephrologists and cardiologists. In addition, the prevention of renal replacement therapies via the optimization of medical therapy is the focus. Since the conception of this Special Issue, sodium-glucose-cotransporter-2 inhibitors have demonstrated a huge potential as cardiorenal medication in order to delay the onset of renal replacement therapies. Other upcoming medications, including finerenone, may add value as cardiorenal medications as well.....

We are glad to have you here to follow up on these and other upcoming publications. Authors should feel free to submit their work.....

an Open Access Journal by MDPI

## Editors-in-Chief

**Prof. Dr. Emmanuel Andrès**

Internal Medicine Department,

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
