Deadline for manuscript
submissions:

28 February 2025

Message from the Guest Editors

We are delighted to announce a call for papers for a Special Issue of *Journal of Clinical Medicine* focused on the latest advances in the diagnosis, treatment, and monitoring of eosinophilic esophagitis (EoE). As a complex chronic, immune-mediated esophageal disease, EoE presents unique challenges in clinical practice and research, necessitating innovative approaches to improve patient outcomes. This Special Issue seeks to gather insightful reviews that explore cutting-edge developments in the field of EoE. Topics of interest include, but are not limited to, novel diagnostic techniques, emerging therapeutic strategies, and advanced monitoring methods for EoE. We also welcome contributions addressing the underlying pathophysiology of the disease, patient-reported outcomes, and multidisciplinary management approaches. By bringing together the latest findings from leading experts and researchers, this Special Issue aims to enhance our understanding of EoE and foster the development of more effective, personalized treatment plans. We encourage submissions that provide significant advancements and provoke thoughtful discussion within the medical and scientific communities.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
