Message from the Guest Editors

Cochlear implantation and middle ear prosthetic technologies have been developed during the last 20 years and have been implemented in numerous clinical settings around the world.

The objective of this Special Issue is to share with the scientific community the latest trends in the cochlear implants field and related technological advances. We invite authors to send papers describing recent developments in (but not limited to) the following potential topics:

Ear Implantable Devices

Middle ear

Piezoelectric (i.e., envoy); Electromagnetic (vibrant soundbridge; otologics carina); Bone conduction implants, percutaneous vs. transcutaneous (i.e BAHA, Oticon Ponto);

Inner ear

Cochlear implants; Cochlear implants with intracochlear drug delivery; Cochlear implants in inner ear malformations; Cochlear implants in the single side deafness; Cochlear implants and vestibular function; Hybrid cochlear implants; Factors which could affect hearing preservation in cochlear implants; Ecog in cochlear implantation; Cochlear implantation after radical modified surgery.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)
