Deadline for manuscript  
submissions:

**20 December 2024**

### Message from the Guest Editor

Dear Colleagues,

It is my pleasure to invite you to contribute to the Special Issue entitled “Latest Developments in Minimally Invasive Spinal Treatment—2nd Edition”. This is a new volume, proceeding the eight papers we published in the first volume (for more details, please visit: [https://www.mdpi.com/journal/jcm/special\\_issues/Minimal](https://www.mdpi.com/journal/jcm/special_issues/Minimal)).

The use of minimally invasive strategies for the surgical treatment of spinal pathology has significantly increased, including the expansion of techniques for treating spinal tumors and spinal deformities. Additionally, there has been an explosion of new technologies over the past decade, including spinal robotics and new navigation-based techniques, that have made some of these techniques more accessible and increased patient safety. However, it has been challenging to identify the optimal assessments at follow-up to discern the most appropriate strategy for each patient.

This Special Issue aims to provide room for new concepts, ideas, and strategies that will help address the future needs of our patients. We are looking forward to your contributions to this Special Issue.

an Open Access Journal by MDPI

Critical Care Medicine, University  
of Tokyo, Tokyo 113-8655, Japan

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPUS / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
