Message from the Guest Editor

Dear Colleagues,

Effective perioperative management plays a crucial role in enhancing patient outcomes and minimizing complications in thoracic surgery. This Special Issue is dedicated to exploring the latest advancements and approaches in perioperative care for patients undergoing thoracic surgical procedures. We welcome contributions on a variety of topics, ranging from preoperative assessments and surgical readiness to comprehensive postoperative care, with a special focus on the management of pain. This Special Issue aims to spotlight innovative practices that incorporate state-of-the-art technologies, new pharmacological treatments, and collaborative efforts across multiple disciplines. Our objective is to provide insights into evidence-based techniques and the latest trends that enhance safety, improve operational efficiency, and increase patient satisfaction in the realm of thoracic surgery.
